Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

A pharmacologically active domain that comprises:

- a. An Fc domain (claims 2 and 18)
- b. An antibody (claims 3 and 19)
- c. OPG protein (claims 11 and 22)
- d. Lepin protein (claims 12 and 23)
- e. TNF-alpha inhibitor (claims 13 and 24)
- f. IL-1 inhibitor (claims 14 and 25)
- g. IL-1a protein (claims 15 and 26)
- h. TPO-mimetic protein (claims 16 and 27).

In the event that species "a" above is elected, the further species election is to be applied:

- a. IgG1 Fc domain (claims 28 and 29)
- b. SEQ ID NO: 2 (claims 30 and 31).

In addition to the election of a species from a-h, above, the following election of species also applies with regard to where the compound is prepared:

- a. In *E. coli*

b. In CHO cells.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 4, 6, and 7 are generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1655

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley L. Sisson whose telephone number is (703) 308-3978. The examiner can normally be reached on 6:30 a.m. to 5 p.m., Monday through Thursday.
